

TPR Firewise – February 2026

2026 offers both opportunities and challenges for the TPR Firewise initiative.

This year the TPR Firewise committee will continue to coordinate Fire Department property assessments and mitigation efforts, and provide on-going education.

Our challenges include a pine beetle infestation which is predicted to occur this year, moving south along the Front Range to Pueblo. For more information, please read the 12/27/2025 Denver Post Pine Beetle article. (We have requested a reprint of the article):

More detail on the TPR Firewise initiative is available on the TPR HOA website, including:

- Vegetation Removal Resources and Annual Results
- Firewise Certification, Applications, Action Plan, Committee Minutes, Resources, Training, etc.

Log-in to the TPR HOA Website and click on the Firewise tab.
